

Orangify Marketing

Capabilities Statement

Orangify Marketing LLC is led by elite engineering veterans. We modernize government infrastructure with scalable AI to automate mission-critical workflows, bridging the gap between tech and operations.

Core Competencies

- Custom Software Development: Scalable Python web apps & cloud backends
- AI & Intelligent Agents: Autonomous bots, RAG integration & workflow automation
- Data Infrastructure: High-performance pipelines & programmatic processing
- AdTech Strategy: Algorithmic targeting & ad stack implementation
- System Modernization: Legacy refactoring for security & speed

Differentiators

We build autonomous AI agents & high-volume data systems, utilizing modern tech stacks for rapid, secure deployment.

Experience

[Most Recent or Most Relevant Client] – [Period of performance]

List experience in order of similarity to the targeted audience (Federal, State, Local, etc.) Customize to focus on what the potential client. What did you do, how much were you paid?

[Past or Next Most Relevant Client] – [May 2022-June 2024]

Include dollar value, performance period, or other aspects that provide examples of success. The goal is to reflect depth – lowering the potential client's risk. Stay away from testimonials and references.

[Past or Next Most Relevant Client] – [Summer 2021]

If you don't have government contracting experience, you can list private work experience. Anything commercial or corporate is best. You can get creative to adapt these sections – the idea is to impress.

Company Snapshot

Established: 2025
